NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR THE NINE MONTHS ENDED JUNE 30, 2013 AND 2012

(Unaudited - Expressed in Canadian Dollars)

1. NATURE OF OPERATIONS

Tintina Resources Inc. (the "Company") was incorporated (TSX.V TAU.V) on July 30, 1998 under the laws of British Columbia and is a mining exploration and development company. The address of the Company's corporate office and its principal place of business is Suite 2560-200 Granville Street, Vancouver, British Columbia, V6C 1S4, Canada.

The Company is in the process of exploring its resource properties and has not yet determined whether these properties contain ore reserves that are economically recoverable. The recoverability of amounts shown for resource properties and related exploration and evaluation costs is dependent upon the discovery of economically recoverable reserves, confirmation of the Company's interest in the underlying mineral claims, the ability of the Company to obtain necessary financing to complete the development and upon future profitable production or proceeds from the disposition thereof.

2. SIGNIFICANT ACCOUNTING POLICIES

Statement of compliance

These interim condensed consolidated financial statements are unaudited and have been prepared in accordance with IAS 34 'Interim Financial Reporting' ("IAS 34") as issued by the International Accounting Standards Board ("IASB") and Interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). The accounting policies applied by the Company in these interim condensed consolidated financial statements are the same as those applied to the consolidated financial statements as at and for the year ended September 30, 2012.

3. NEW STANDARDS AND INTERPRETATIONS NOT YET ADOPTED

Standards issued but not yet effective up to the date of issuance of the Company's financial statements are listed below. This listing of standards and interpretations issued are those that the Company reasonably expects to have an impact on disclosures, financial position or performance when applied at a future date. The Company intends to adopt these standards when they become effective.

IFRS 9 Financial Instruments: Classification and Measurement

IFRS 9 as issued reflects the first phase of the IASBs work on the replacement of IAS 39 and applies to classification and measurement of financial assets and financial liabilities as defined in IAS 39. The standard is effective for annual periods beginning on or after January 1, 2015. In subsequent phases, the IASB will address hedge accounting and impairment of financial assets. The Company will quantify the effect in conjunction with the other phases, when issued, to present a comprehensive picture.

IFRS 10 Consolidated Financial Statements

IFRS 10 replaces the portion of IAS 27 *Consolidated and Separate Financial Statements* that addresses the accounting for consolidated financial statements. It also includes the issues raised in SIC-12 *Consolidation – Special Purpose Entities*.

IFRS 10 establishes a single control model that applies to all entities including special purpose entities. The changes introduced by IFRS 10 will require management to exercise significant judgment to determine which entities are controlled, and therefore, are required to be consolidated by a parent, compared with the requirements that were in IAS 27.

This standard becomes effective for annual periods beginning on or after January 1, 2013.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR THE NINE MONTHS ENDED JUNE 30, 2013 AND 2012

(Unaudited - Expressed in Canadian Dollars)

3. NEW STANDARDS AND INTERPRETATIONS NOT YET ADOPTED (continued)

IFRS 12 Disclosure of Involvement with Other Entities

IFRS 12 includes all of the disclosures that were previously in IAS 27 related to consolidated financial statements, as well as all of the disclosures that were previously included in IAS 31 and IAS 28. These disclosures relate to an entity's interests in subsidiaries, joint arrangements, associates and structured entities. A number of new disclosures are also required. This standard becomes effective for annual periods beginning on or after January 1, 2013.

IFRS 13 Fair Value Measurement

IFRS 13 establishes a single source of guidance under IFRS for all fair value measurements.

IFRS 13 does not change when an entity is required to use fair value, but rather provides guidance on how to measure fair value under IFRS when fair value is required or permitted. The Company is currently assessing the impact that this standard will have on the financial position and performance. This standard becomes effective for annual periods beginning on or after January 1, 2013.

Amendments to other standards

In addition, there have been other amendments to existing standards, including IAS 27 – Separate Financial Statements and IAS 28 – Investments in Associates and Joint Ventures. IAS 27 addresses accounting for subsidiaries, jointly controlled entities and associates in non-consolidated financial statements. IAS 28 has been amended to include joint ventures in its scope and to address the changes in IFRS 10 to IFRS 13.

The Company is currently assessing the impact of all of the above mentioned new standards.

Black Butte Copper

i) Black Butte Copper 2010 Leases

On May 2, 2010, the Company, through its wholly-owned subsidiary TAEI, entered into mining lease agreements and a surface use agreement (collectively, the "Black Butte Agreements") with the owners of the Black Butte copper-cobalt-silver property in central Montana, United States. The Black Butte property consists of approximately 7,684 acres of fee-simple lands and 4,541 acres in 239 Federal unpatented lode mining claims in central Montana.

The Black Butte Agreements provide the Company, through its subsidiary, with exclusive use and occupancy of any part of the property that is necessary for exploration and mining activities for an initial term of 30 years, which can be extended by Tintina for additional periods of 10 years by giving prior notice within the time specified in the agreements. The Black Butte Agreements provide for surface lease payments and, prior to commercial production, advance minimum royalty payments to be paid to the lessors, in cash, and a net smelter returns ("NSR") royalty of 5% after commencement of commercial production, if any. The Company has the right to buy down this royalty to 2% at any time after completion of a feasibility study by making payments to the lessors totalling US\$10.000,000.

Agreements with Affiliates of Rio Tinto and NovaGold

The Company entered into an agreement dated August 27, 2008 with affiliates of NovaGold Resources Inc. ("NovaGold") to purchase a 100% interest in mineral claims comprising over 390,000 acres in Alaska. On March 6, 2009, the Company completed and closed the acquisition.

The agreement with NovaGold entitling the Company to acquire an interest in five mineral properties in Alaska, United States as outlined below, was amended on November 27, 2008 to change the closing date from November 30, 2008 to December 31, 2008 and to allow for separate closings for the five mineral properties in Alaska. The five Alaska mineral properties comprise of Colorado Creek, Kugruk, Tintina, Baird, and Omilak. Tintina and Omilak were dropped in fiscal year 2009 and fiscal year 2010, respectively. 5. RESOURCE PROPERTIES (continued)

Following is a description of the Alaska properties:

a) Baird

The Company owns the mineral property rights on the Baird property, which comprises of 58,640 acres in 371 Alaska state mining claims. 311 of the 371 claims are 100% owned by the Company through its wholly-owned subsidiary TAEI. The remaining 60 claims are subject to an amended earnin agreement that was signed on October 21, 2011.

The amended agreement with a non-related party enables the Company to acquire up to an initial 60% undivided interest in those mining claims. In order to maintain the option in good standing and earn an initial 60% interest, minimum US\$500,000 of exploration and evaluation costs must be incurred every 12 month period commencing January 1, 2012 until US\$4,000,000 of exploration and evaluation costs have been expended on or prior to December 31, 2015. In addition, the Company will have completed on those mining claims not less than 2,000 metres of drilling on or prior to December 31, 2015.

When the Company has incurred up to a total of US\$4,000,000, the non-related party will decide either to participate in a joint venture with the Company, to hold the remaining 40% interest in the mining claims, or to receive 2% NSR. If the non-related party elects to receive 2% NSR, the Company will immediately be deemed to have earned a 100% interest in the 60 claims. The Company may purchase one half of the 2% NSR for US\$3,000,000, adjusted for changes in the consumer price index.

As at June 30, 2013, the Company wrote off \$397,391 of its mineral property interest in Baird as the Company focuses its efforts on the Black Butte Copper project.

b) Kugruk

The Kugruk property (comprised of 84,320 acres in 536 Alaska state mining claims) is located 115 km south of Kotzebue in the low tundra of the northern Seward Peninsula and 20 km from northern margin of the Seward Peninsula at Kotzebue Sound. Tintina leases four 160-acre claims from a non-related party and owns the remaining claims through one of its subsidiaries, Tintina Alaska Mining Inc.

On May 1, 2013, the Company sold its interest in the mineral claims of the Kugruk property to an unrelated third party. The Company retains a royalty interest in the mineral claims in the form of a 1.5% NSR on any proceeds derived from mining and sale of minerals. Further, the Company retains a first right of refusal for a period limited to 10 years, in the event the mineral claims were elected to be transferred to another third party or allowed to lapse. As at June 30, 2013, the Company wrote off \$705,734 of its mineral property interest in Kugruk.

6. SHARE CAPITAL
